Professional Experience

Creative Director & Project Manager

Prop House Design | Nov 2024 – Dec 2025

- ❖ Directed fabrication and installation projects for luxury hotels, casinos, and international brands, ensuring projects were completed on time and aligned with client expectations.
- ❖ Managed cross-functional collaboration between clients, artists, fabricators, and manufacturers to translate creative concepts into large-scale physical installations. Improved production workflows and staff capabilities through training in CO2 laser systems, 3D scanning/modeling, and organizational software.
- ❖ Oversaw multiple simultaneous projects while maintaining quality standards, timelines, and visual consistency.
- ❖ Contributed to process optimization and operational efficiency within a fast-paced production environment.

Laboratory Manager

Hanger Clinic | Oct 2022 – Jun 2024

- ❖ Supervised and coordinated daily laboratory operations for a team of six, improving communication and workflow efficiency across departments.
- ❖ Fabricated custom carbon fiber prosthetic sockets and supported clinicians in delivering tailored patient treatment solutions. Developed advanced customized prosthetic solutions including adjustable sockets, intricate socket designs, and cosmetic covers.
- ❖ Managed inventory systems, order tracking, and returns to maintain efficient laboratory operations and minimize delays.

Specialty Prosthetist

Medical Art Prosthetics | Apr 2020 – Jan 2022

- ❖ Designed and fabricated realistic silicone prosthetics including ears, noses, eyes, and fingers to improve patient confidence and quality of life.
- ❖ Led social media marketing initiatives that grew the company's presence to nearly 200,000 followers and over 7 million likes across platforms. Increased brand visibility and appointment inquiries through content strategy, visual storytelling, and audience engagement.

Professional Summary

I am a versatile and detail-oriented Project Manager & Designer with experience in creative direction, web development, and healthcare technology. I have a wide variety of skills which makes me adept at multitasking efficiently, identifying process improvements, and leading projects. Over the years I have shown a proven ability to merge artistic and technical skills in high-stake situations, and am looking forward to discussing my fit on your team.
